Full-Stack Developer Internship
Orange Jordan

07/2023 - 10/2023   *Amman, Jordan*

Tasks
- I developed responsive websites with HTML, CSS, JavaScript, and PHP in a collaborative team. I handled API integration, version control, and quality assurance.

PERSONAL PROJECTS

Personal Portfolio Website ↗
*My portfolio website, made in **React.js**. I was introduced to **react router**, **react hooks**, **component -based architecture** and **API** integration. With great focus on **user** experience.*

Tv Show Carousel Web App ↗
*A **React.js** web app showcasing TV shows with **carousel** navigation, powered by **JSON** data, fetched from a mock **API**. Implemented **lazy loading** and **image skeletons** for enhanced **performance** and visual appeal.*

Login Page in React ↗
*A login page with a simple interface design. Coded using **React.js** and a **firebase** backend.*

Seminar Website ↗
*A **responsive** seminar website. Coded in **HTML**, **CSS** and **Bootstrap**. Used **grid** layout and **media queries** to maintain a good design on multiple screen sizes.*

Business Website ↗
*An **interactive** subscription-based business website. Coded in **HTML**, **CSS** and **Bootstrap**.*

SKILLS

HTML JavaScript React.js Next.js CSS
Figma Java C++ C# Unity Perl 5
Linux Problem-Solving Teamwork

ACTIVTIES

Participated in IEEEXtreme 16.0 (10/2022) ↗

Participated in IEEEXtreme 15.0 (10/2021) ↗
- Top 20 nationally
